

COURSE IN

EXPERIMENTAL DESIGN AND ANALYSIS OF DATA FOR RESEARCH WITH ANIMALS

1ST EDITION

**18, 25 and 26 FEBRUARY
4, 11 and 18 MARCH**

IBMC, PORTO

CONTENTS:

Basic concepts in probability and statistics
Single and two factor analysis of variance
Basic principles of animal experimental design I
Basic principles of animal experimental design II
Analysis of covariance
Data transformations and non parametric methods
Multivariate analysis of variance

COURSE DURATION: 30 hours

REGISTRATIONS:

Registrations until 4 February
Limited number of participants

FEE:

Until 10 January
250€ for I3S participants;
300€ for external participants

After 10 January
300€ for I3S participants;
350€ for external participants

(20% discount for participants that have done the LAS
Course Cat C at IBMC)

REQUIREMENTS:

Laptop with SPSS
