

# Epigenetics and Cancer

19 of March |

## PROGRAMME

**15H00**

**Role Polycomb complex during embryonic stem cell differentiation and in cancer**

**Luciano Di Croce**, CRG - Center for Genomic Regulation, Barcelona, Spain

**15H45**

**Epigenetic changes in cancer and Epithelial to Mesenchymal Transitions**

**Carla Oliveira**, IPATIMUP, University of Porto, Portugal

**16H30 - coffee break**

**17H00**

**Development of epigenetic biomarkers for urological cancer detection and prognosis assessment**

**Carmen Jeronimo**, Cancer Epigenetics Group of Research Center, Portuguese Oncology Institute, Porto, Portugal

**17H45**

**p63 targets the chromatin remodeler Lsh during senescence bypass and tumor initiation**

**Bill Keyes**, Mechanisms of Cancer and Aging Group, Centre for Genomic Regulation (CRG), Barcelona, Spain

**19 MARCH - IBMC MAIN AUDITORIUM | Registration Free but mandatory / Email to [acorreia@ibmc.up.pt](mailto:acorreia@ibmc.up.pt)**
