

IBMC INEB WORKSHOP

4th COURSE ON OPTICAL MICROSCOPY IMAGING FOR BIOSCIENCES OPEN DAY - 22 JUNE 2012 FREE ENTRANCE

9:30

**Live cell imaging assays to study cytokinesis
in the early *C. elegans* embryo**

Ana Carvalho

10:30

Intravital imaging of malaria pre-erythrocytic phase

Joana Tavares

11:30 Coffee Break

12:00

**High Content/Throughput Microscopy to Study
Golgi Biogenesis and Membrane Traffic
in Mammalian Cells**

Renier Pepperkok

13:00 Lunch

14:30

**Imaging dendritic spines in hippocampus:
A confocal microscopy approach**

Diana Rodrigues

15:10

3D development imaging

Gabriel Martins

15:50

**Applications of advanced fluorescence microscopy
to the study of virus particle formation**

Daniela Ribeiro

16:30 Break

17:00 Results presentations and open discussion

18:30 Final remarks and certificates
