

IBMC  **INEB**

PhD Training Series

12H IBMC AUDITORIUM

SEPTEMBER 18

Effects of human aging in mitotic fitness and chromosome stability

Joana Macedo, Chromosome Instability and Dynamics, IBMC

OCTOBER 16

Solving a gene regulation puzzle: the unique Fe/S cluster regulator, IscR

Joana Santos, Biomolecular Structure, IBMC

OCTOBER 23

Modeling cardiogenesis: new tools to investigate cardiac specification and differentiation

Ana Freire, Newtherapies Group, INEB

OCTOBER 30

At the Embryo's Heart: Looking For Cardiac Repair/Regeneration Potential

Mariana Valente, Newtherapies Group, INEB

NOVEMBER 27

The importance of the neurotrophins NGF and BDNF in bladder dysfunction. An experimental study in the rat

Bárbara Frias, Translational Neuro-Urology, IBMC

DECEMBER 11

Stability of Kinetochore-Microtubule attachment and the role of different KMN network components in *Drosophila*

Tália Figueiredo, Molecular Genetics, IBMC

FCT

Fundação para a Ciência e a Tecnologia
MINISTÉRIO DA CIÊNCIA, TECNOLOGIA E ENSINO SUPERIOR

COMPETE
