

10 APRIL 2015

Different cells count differently: centrosome number and structure regulation in development and disease

Mónica Bettencourt Dias, Instituto Gulbenkian de Ciência, Oeiras, Portugal

17 APRIL 2015

Molecular mechanisms and biological functions of microtubule diversity

Carsten Janke, Institut Curie, Paris, France

24 APRIL 2015

Correlative microscopy: development, impact and perspectives

Alberto Luini, Institute of Protein Biochemistry (IBP), Naples, Italia

08 MAY 2015

Diet, microbiome and CNS autoimmunity

Gurumorthy Krishnammorthy, Max Planck Institute of Neurobiology, Munich, Germany

15 MAY 2015

The power of adoptive T cell therapy

Thomas Blankenstein, Max-Delbrück-Center for Molecular Medicine and Institute of Immunology, Berlin, Germany

22 MAY 2015

Out of balance - iron homeostasis in iron-related disorders

Martina Muckenthaler, University of Heidelberg, Germany

29 MAY 2015

Receptors, synapses and memory

Ana Luisa Carvalho, CNB - Coimbra University of Coimbra, Portugal
