

PhD Training Series
12H IBMC AUDITORIUM

MAY 14

Intranasal immunization with *N. caninum* membrane antigens, protects against intragastric established neoporosis

Pedro Ferreirinha,
Immunobiology, IBMC

JUNE 11

Feedback mechanisms involved in the regulation of the anaphase-telophase transition

Olga Afonso, Chromosome
Instability & Dynamics, IBMC

JUNE 25

Characterization of *cyanobacteria* isolated from the Portuguese coast: diversity and potential to produce bioactive compounds

Ângela Brito, Bioengineering
and Synthetic Microbiology,
IBMC

SEPTEMBER 17

Incidence of hip fractures in Portugal from 2000-2010. A temporal, spatial and spatial-temporal analysis.

Carla Oliveira, Geoepidemiology,
INEB

SEPTEMBER 24

Role of innate response to *Escherichia coli* induced neonatal sepsis

Joana Alves, Immunobiology,
IBMC
