

**MARCH 12**

**Probing contractile ring dynamics by laser microsurgery during cytokinesis**

**Ana Marta Silva**, (supervisor: Ana X. Carvalho), IBMC

**MARCH 26**

**Unusual interactions between Myosin IIA and the endoplasmic reticulum during host response to bacterial toxins**

**Francisco Mesquita**,  
Molecular Microbiology, IBMC

**APRIL 09**

**Functional properties of the KtrAB potassium transporter**

**Andras Szollosi**, Structural Biochemistry, IBMC

**APRIL 23**

**Reading the genetic roadmap of human in(fertility)**

**Alexandra Lopes**, Population Genetics, IPATIMUP
