

IBMC ● **INEB**

POST DOC SEMINARS

12H IBMC AUDITORIUM

11 MARCH 2015

Identification of the most active deubiquitinases acting on ubiquitin precursors

Cláudia Grou, Organelle Biogenesis and Function, IBMC

29 APRIL 2015

Identification of the most active deubiquitinases acting on ubiquitin precursors

Isabel Castro, Gene Regulation, IBMC

25 MARCH 2015

Downregulation of sodium vitamin C co-transporter-2 (SVCT2) is necessary for the pro-inflammatory signature in microglia

Camila Portugal, Glial Cell Biology, IBMC

06 MAY 2015

Strategies to improve the robustness and functionality of a cyanobacterial-based chassis

Filipe Pinto, Bioengineering and Synthetic Microbiology

08 APRIL 2015

Tinea capitis - past and present concerns

Paula Boaventura, IPATIMUP
